

John Patrick Funk - Enchanted Lands Spirit Lights Sculptures

Enchanted Lands Spirit Lights are unique atmosphere enhancing Art Sculptures that incorporate LED Technology and natural earth elements from New Mexico: Cholla Cactus & Quartz Crystals etc. I create each work around special shapes of the Cholla. Every branch is prepared and painted to facilitate light transmission, then specially engineered with electronics in a highly detailed finishing process.

The Spirit Light sculpture "Inventions" present the first time that the Cholla Cactus has been incorporated with Crystal & LED lighting technology making the Enchanted Lands Spirit Lights innovative contemporary Art and Meditation Sculptures.

These works are the continuation of the "Enchanted Lands" Music legacy created 4 years ago. The Enchanted Lands Soundscapes Volumes #1 - 5 are produced at the Cozmic Funk Pilar Studio in Northern New Mexico just south of Taos in the Rio Grande Gorge Valley. The Music is directly influenced by the beautiful landscapes & skies of New Mexico: The Land of Enchantment.

Images in this portfolio represent 3 years of work, starting with Series # 1 in the summer of 2013 during the production of the Enchanted Lands Soundscapes Vol. #2. The Spirit Lights were first created as experimental sculptures in tandem with the creation of the music-expressions and influenced by certain tracks like Canyon Journey & Spirit Winds and as family, freinds, acquaintances and various people started taking interest and purchasing the works, it became evident that the Spirit Lights were taking on a life of their own.

As mentioned, many series have been created over a 3 year period and commissioned work has extended into Jewelry, Christmas Ornaments and custom miniature Spirit tea lights. More than 50 works have been produced in these series that include variations of series hybrids like the current Spirit Tea Light/Ornaments and unique Spirit Trees. Certain works like the Spirit Light Fantasy Series have only been produced in a small quantity and have not been reproduced.

It has been important for me as an artist to honor the work and inspiration and be able to move into new realms of the work/creative expressions. In some cases I have "retired" certain series of the Spirit sculptures while spending more focus on themes that I feel have continued resonance, hence producing more of the similar works and hybrids and refining processes in the creation of them. I have become very close to the making of the Spirit Tea Light series especially since they are smaller works and can be created in so many varieties with the unique shapes of the cholla.

Just like in the music creation, each Spirit Light has it's own personality and character- no 2 are the same. I feel that the people that receive them either as gifts or purchased are the people chosen by the Spirit Lights to bond with continue their adventures together. Whether they are used with the music in a therapudic manner, with Meditation or just enjoyed for atmosphere, I consider these sacred works and am honored to pass them on. My hope is that every adopted owner loves and appreciates them as much as I do. Thank you for the opportunity to share these blessings from my Heart to Yours :)

sincerely- John Patrick Funk Decemeber 2016
